Greetings,

Thank you for your inquiry into the *World Directory of Medical Schools* Subscription Service.

The *World Directory of Medical Schools* is freely available at www.wdoms.org. On the directory website, you may search the school details of all schools included in the *World Directory* (<https://search.wdoms.org/>).

Before an eligible medical school can be included in this directory we must confirm the school's operational status and recognition from an appropriate government agency or ministry. The listing of a medical school is free, available to all government-recognized medical schools around the world. Searching the directory online is also free. Information is updated daily, as verifiable information is shared with us.

A subscription will allow the subscriber to download detailed information of all listed medical schools in a searchable .CSV or .XML format. To view a Data Dictionary with descriptions of all data fields available through subscription, please visit the following URL: <https://www.wdoms.org/data-dictionary-world-directory.pdf>

The fee for an annual subscription is US \$7,500. To purchase a subscription, please respond to this message with the full name and mailing address of your organization so that we may send you an invoice and further details.

Regards,

World Directory Staff
